## Information Included in Report

VIN Reports will include a transcript of the information included in the Buick Motor Division's microfilm records, as well as a Wholesale Car Order Form completed to indicate the specifications unique to that vehicle.

Such information includes:

- Body Style
- Engine
- Original paint and trim package
- Options and accessories

Reproductions window stickers, invoices, or ownership records are not available.

Manufacturing records may be obtained for specific individual features at an additional charge of \$15.00/half-hour of research time. These records indicate the number of vehicles produced with that specific feature. These records cannot indicate manufacturing numbers for combinations of features, or for special-order features.

All VIN report information is gathered directly from Buick Motor Division's microfilm reels for factory production. The Sloan Museum makes no warranties or guarantees regarding any of the following:

- The accuracy of the identification of a vehicle for which information is sought, whatever the means of identification is used by the applicant.
- The accuracy of information as published in original journals, magazines, catalogs or other source material used to supply the requested information.
- The accuracy of authenticity of information supplied by current books, periodicals, magazines or other source material used by the applicant.
